Genesee County Adult Home/ Domiciliary and Special Care Community Dementia Unit

The Genesee County Adult Home (also referred to as "The Domiciliary") is a New York State licensed and regulated home offering housing for adults of all ages. The 80-bed unit provides shared rooms, meals, medication assistance, housekeeping, laundry service, activities, personal care and 24-hour supervision. Our program fosters a home-like, family atmosphere while providing resident-focused, individualized care in the most appropriate setting utilizing extensive input from the resident, resident family, staff and physician.

Within the 80-bed adult home is the 40-bed secured Special Care Community Dementia Unit whose mission statement is as follows: This household is

secured to provide monitoring while promoting unique wandering paths. The household will have activity

programs seven days a week. The household promotes less stressful stimuli and common areas where the furnishings will be kept in familiar settings to promote recognition of surroundings. We have specially trained staff who will provide a supportive and enriched environment. The Special Care Unit will promote the self worth of

the dementia residents and will provide choice and control over their daily lives.

Rehabilitation Unit

Genesee County Nursing Home has a specialized rehabilitation unit to assist you in all aspects of a short-term recovery stay. Our 12-bed unit is beautifully decorated and offers private rooms which include a telephone, television/VCR, and bathroom, located in a quiet and separate wing. Our dining staff provides delicious meals in a reserved dining area.

Our rehab professionals have specialized training and are committed to providing expert care and **Intravenous Therapy**. Our therapy team is available six days a week in order to assist you in a more efficient and effective recovery. A dedicated team which includes Therapy, Social Work, and Nursing designs a personalized care plan for each resident. Meetings are scheduled with you and your family to answer any questions and discuss any safety concerns for your return home. Together with you, they will assist in obtaining the necessary equipment, making referrals and offering suggestions for any changes needed in your home. Our number one goal is to assist you in returning home healthy, safe and strong.

Adult Day Health Care Services

Adult Day Health Care Services is a convenient, cost-effective alternative to long-term care. It is a community-based service, which helps people maintain or improve their level of functioning in order to maintain their residence within the community. This program is designed to provide social services, medical supervision and recreational activities for participants. The stimulating and supportive environment developed with a commitment to quality services strives to promote positive physical and mental health. Crafts made by residents are sold in the facility gift shop. The Adult Day Health Care Services foster independence, build self-esteem and self-confidence.

Each participant must attend at least one day each week and must stay at least five hours per visit. Hours of attendance can be arranged to fit the caregiver's or participant's schedule. The program is available Monday through Friday, 8:30am to 5:00pm. For more information call 585-344-0584 ext. 2126.

Memory Care Unit

The Memory Care Unit is a skilled nursing unit for individuals afflicted with Alzheimer's disease or related disorders causing memory impairments. It is a 28-bed secured unit. This unit provides added security and enhanced programming and staffing. A private patio area is adjoined to the unit offering residents the opportunity to enjoy the outdoors in a safe and secured environment. The program includes cognitive and physical activities of daily living, as well as psycho-social and self-expression components. The unit offers a structured format while allowing flexibility to accommodate the attention span of residents. The format is designed to reduce agitation and increase participation and social interaction.
